Plan Description:

1) In 2006, a total of 25,494 home loans were made in Palm Beach County, of which 8,354 (32.8%) were sub-prime loans; 2) As of September 30, 2008 there were 12,000 foreclosed-upon properties in Palm Beach County. 3) More recent information has indicated increasing numbers of foreclosures in the 1st quarter of 2009.

Recovery Needs:

Using HUD-provided data, Palm Beach County has identified areas with the greatest need for NSP assistance based on the following factors:

- areas with greatest percentage of home foreclosures;
- areas with the highest percentage of homes financed by subprime mortgages;
- areas identified by the County as likely to face significant rises in the incidences of home foreclosures; and
- areas within the County with the highest concentrations of low- and moderate-income persons.

NSP funds will be used exclusively in these identified areas to arrest the deteriorating effects of home foreclosures
