Summary of Distribution and Uses of NSP Funds:

Palm Beach County will utilize the NSP3 allocation of \$11,264, 172 to undertake four (4) activities, as follow:

First and Second Mortgage Program (Category A-Financing Mechanism): \$6,821,712 will be utilized to provide first and/or second mortgages to homebuyers to acquire and rehabilitate approximately 42 foreclosed single-family housing units for owner-occupancy by LH and LMMI households. The activity will take place in Areas of Greatest need located in Palm Beach County (Target Areas A, B, C, D, E, F, and G).

Palm Beach County Housing Authority (Category B-Acquisition and Rehabilitation): \$1408,021.50 will be provided to the Palm Beach County Housing Authority, acting a a subrecipient, to acquire and rehabilitate a multi family residential facility known as South Bay Villas for rental to 0-50% AMI households. The activity will be located in an Area of Greatest Need located in western Palm Beach County (Target Area E).

Pahokee Housing Authority (Category E-Redevelopment): \$1,408,021.50 will be provided to the Pahokee Housng Authority, acting as a subrecipient, to construct 6 new rental housing units on vacant property at the Authority's McClure Village development. The activity will be located in an Area of Greatest Need located in the western area of Palm Beach County (Target Area E).

Program Administration: \$1,126,417 will be utilized by the County's Department of Housing and Community Development for general planning administrative expenses associated with the NSP3 Program.

Demolition: \$500,000 will be utilized to demolish at least 60 vacant and blighted structures in the Glades area of Palm Beach County. The activity will be located in an Area of Greatest Need located in the western area of Palm Beach County (Target Area E).

How Fund Use Addresses Market Conditions:

The percentage of homes financed by subprime mortgage related loans in the seven (7) Target Areas were obtained from the NSP-3 Mapping Tool, which utilizes Home Mortgage Disclosure Act (HMDA) Census Tract data on high cost and highly leveraged loans from 2004-2007 for the identified Target Areas. Between 20 percent to 46 percent of the homes within the identified Target Areas were financed by subprime mortgages (Target Area A: 14.69 percent; Target Area B: 18.4 percent; Target Area C: 26.7 percent; Target Area D: 20.4 percent; Target Area E: 54.0 percent; Target Area F: 33.0 percent; and Target Area G: 46.8 percent). This range represents a high number of potential foreclosures in the future, which HCD considered a major factor in identifying Areas of Greatest Need for NSP-3 funding.

The percentage of low-and very-low income households in the Target Areas were obtained utilizing the NSP-3 Mapping Tool. Because the average percent of households falling below 80% AMI for Target Area E (Glades Region) is very high (75 percent), and the market conditions are not optimal for home ownership, HCD determined this region would benefit from two multi-family rental programs. It was therefore determined that NSP-3 funds would be more effectively utilized to redevelop vacant property through the construction of multi-family rental units and the acquisition and rehabilitation of a large multi-family housing facility of approximately 50 units. These activities will increase the number of affordable rental units for eligible participants. Based on the fact that these activities will be carried out by Housing Authorities for their clients, they will be affordable. The other Target Areas exhibited higher income levels than Target E, and it was therefore decided that the population may be able to participate in a home ownership program, hence a First and Second Mortgage program was identified as beneficial to absorb foreclosed/REO property within these neighborhoods. The quick removal of 42 foreclosed single-family homes from the market will stabilize the housing market by arresting the decline in housing prices in the area.

Ensuring Continued Affordability:

In order to ensure continued affordability of all properties assisted with NSP-3 funds, an encumbrance will be placed on title to the property. This encumbrance will restrict the property's use to that specified by terms of the NSP-3 assistance and require the applicable affordability standards described above for an uninterrupted period of no less than twenty (20) years from the date of project completion for rental properties, and no less than fifteen (15) years for owner-occupied properties. The County may elect to require longer periods of affordability given the amount and type of assistance

provided to a specific project. The aforementioned encumbrances will be required and enforced regardless of the amount or type of NSP-3 assistance provided and regardless of any mechanism by which the NSP-3 financial interest is secured.

Furthermore, if the housing does not continue to be the principal residence of the family for the duration of the period of affordability, the entire amount of the NSP-3 investment will be recaptured from the owner of the property.

The County will not participate with NSP-3 funds in a home purchase/sale when the resulting level of housing expense to the buyer is not affordable, and results in an unstable housing situation, potentially leading to foreclosure. In order to ensure affordability for each individual homebuyer assisted through NSP-3, in no instances shall the principal, interest, tax, insurance, and association fees (if any) exceed thirty-five percent (35%) of the homebuyer's annual household income.

Definition of Blighted Structure:

HCD accepts the definition of Blighted Structure within the "Notice of Formula Allocations and Program Requirements for Neighborhood Stabilization Program Formula Grants" for NSP-3 as "a structure is blighted when it exhibits objectively determinable signs of deterioration sufficient to constitute a threat to human health, safety and public welfare." When encountering the need to determine whether a structure is blighted, HCD will comply with the definitions and requirements of Ordinance 2003-051, an Ordinance of the Board of County Commissioners of Palm Beach County known and cited as the Property Maintenance Code of Palm Beach County.

Definition of Affordable Rents:

When determining affordable rent for any occupant of rental property purchased with NSP-3 funds, Palm Beach County will utilize the following methodology:

A rent, including utilities, which does not exceed thirty percent (30%) of a household's gross income.

The County will, in its agreement(s) with the subrecipient(s), stipulate the methodology to be used and will conduct monitoring of initial tenants and any new tenants to ensure proper maintenance of the units and continued affordability.

Housing Rehabilitation/New Construction Standards:

In order to ensure continued affordability of all properties assisted with NSP-3 funds, an encumbrance will be placed on title to the property. This encumbrance will restrict the property's use to that specified by terms of the NSP-3 assistance and require the applicable affordability standards described above for an uninterrupted period of no less than twenty (20) years from the date of project completion for rental properties, and no less than fifteen (15) years for owner-occupied properties. The County may elect to require longer periods of affordability given the amount and type of assistance provided to a specific project. The aforementioned encumbrances will be required and enforced regardless of the amount or type of NSP-3 assistance provided and regardless of any mechanism by which the NSP-3 financial interest is secured.

Furthermore, if the housing does not continue to be the principal residence of the family for the duration of the period of affordability, the entire amount of the NSP-3 investment will be recaptured from the owner of the property.

The County will not participate with NSP-3 funds in a home purchase/sale when the resulting level of housing expense to the buyer is not affordable, and results in an unstable housing situation, potentially leading to foreclosure. In order to ensure affordability for each individual homebuyer assisted through NSP-3, in no instances shall the principal, interest, tax, insurance, and association fees (if any) exceed thirty-five percent (35%) of the homebuyer's annual household income.

Vicinity Hiring:

The First and Second Mortgage Program will comply with the vicinity hiring rules, as HCD will encourage all recipients of the NSP-3 funding, when faced with a choice between a qualified contractor/developer/job applicant located in the project area and a qualified contractor/developer/ job applicant from outside the project area, to select the qualified contractor/developer/ job applicant from inside the area.

For the Acquisition/Rehabilitation and Redevelopment activities, HCD will provide language in the subrecipient agreement stipulating that when faced with a choice between a qualified contractor/developer/job applicant located in the project area and a qualified contractor/developer/ job applicant from outside the project area, they should select the qualified contractor/developer/ job applicant from inside the area.

Procedures for Preferences for Affordable Rental Dev.:

The County's NSP3 Action Plan has budgeted \$2,816,043 for the development of affordable rental housing through Acquisition/Rehabilitation and Redevelopment activities to be undertaken by two local public housing authorities serving 0-50% AMI households.

Overall Progress Narrative:

Palm Beach County recently amended its NSP3 Action Plan to add "Demolition" as an activity and to expand the scope of the financial mechanism activity to allow for the provision of first/second mortgages to households whose income are at or below 50% of the AMI. The County continues to market the First and Second mortgage programs and to date 76 households have been approved to receive assistance of which 8 have units which are under contract. Under the acquisition and rehabilitation activity, a 65 unit foreclosed multi-family residential structure has been identified for purchase by the Palm Beach County Housing Authority. The framework for implementing a demolition program in the Glades area is now in-place and a list of 60 eligible properties was received from the three municipalities in the Glades area as well as from Palm Beach County.

Activity Description:

Financing Mechanism: County provision of first and/or second mortgages to LMMI homebuyers for acquisition and rehabilitation of foreclosed single-family homes for owner occupancy.

Location Description:

Areas of Greatest Need located in eastern Palm Beach County and identified in the NSP3 application as Target Areas A, B, C, D, E, F, and G.

Activity Progress Narrative:

There are a combined total of 76 approved applications for this activity (both LH and LMMI). During this quarter five (5) clients who were previously approved are now under contract. DES anticipates that fifty percent will be expended by March 2013.

Activity Description:

Acquisition and rehabilitation of a 65 unit multi-family residential property known as South Bay Villas by the Palm Beach County Housing Authority for affordable rental to LH households.

Location Description:

110 Harelle Drive, South Bay, FL 33493

Activity Progress Narrative:

The Palm Beach County Housing Authority (PBCHA) has identified a 65-unit multifamily property, known as South Bay Villas, for acquisition and rehabilitation. The property owner has defaulted on a mortgage, and foreclosure filing is imminent. The PBCHA and the owner are currently negotiating a purchase contract, and the County is preparing a subrecipient agreement and environmental review. The property acquisition is anticipated to close during fourth quarter 2012.

Activity Description:

Redevelopment of vacant property for new construction of at least 6 rental housing units for affordable rental to LH households by the Pahokee Housing Authority.

Location Description:

An Area of Greatest Need located in western Palm Beach County identified in the NSP3 application as Target Area E.

Activity Progress Narrative:

The Pahokee Housing Authority (PHA) is entering into a master development agreement with development partner Housing Trust Group (HTG) for purposes of the McClure Village housing redevelopment. The County is drafting agreements to be executed with each the PHA and the partnership of PHA and HTG. Project design calls for new construction of 3 duplexes (6 units) and 1 single-family home on vacant sites within the McClure development. Architectural design is 90% complete, and engineering design is underway. The project will commence construction during the fourth quarter of 2012.

Activity Description:

Demolition (Category D) of vacant and blighted structures in the Glades Area.

Location Description:

The activity will take place in an Area of Greatest Need as identified as Target Area E, which is located in the Glades Area of Western Palm Beach County, FL.

Activity Progress Narrative:

The County has identified approximately 60 properties for demolition in the target area. Arrangements are currently being finalized with PBC Development

Operations and the three cities in the Glades area to formalize strategies to undertake this program. Commencement is expected shortly.
