

PROJECT HIGHLIGHT

1

LIMESTONE CREEK Basketball Court Expansion

\$150,000 in CDBG funding has been allocated by the County’s Department of Economic Sustainability for the expansion of the half-court basketball court facility to a full-court configuration. Design has been completed, with construction expected to commence later this spring.

PROJECTS UNDER CONSTRUCTION

2

BELVEDERE ESTATES PARK New Construction

This project calls for the construction of a new neighborhood park on a 0.3 acre parcel located at the SW corner of Bridgeman Drive and Florida Mango Road in suburban West Palm Beach. Project elements include two playground areas, half court basketball area and associated pathways and landscaping. The project is under construction and is expected to be completed by May. \$400,000 has been allocated in CDBG funding for the construction of this park.

4

JOHN PRINCE PARK THERAPEUTIC RECREATION CENTER Renovations

\$585,000 in CDBG funding has been allocated by the County’s Department of Economic Sustainability for a variety of renovations to the pool, Fountains building and entrance. Design for the Fountains building is complete and includes ADA compliant renovations to the restrooms, kitchen and storage area. Pool improvements include an expanded deck, pool chiller, and floating teaching platform. The facility’s entrance will also be expanded to better accommodate large vehicles and eliminate sight line impediments. Renovation of the Fountains building is nearing completion, with the pool and entrance work to commence at a future date pending project costs.

3

OKEEHOLEE PARK Ski Lake Dock Replacement

\$350,000 in Florida Boater Improvement Program (FBIP) funds have been allocated for the replacement of the outdated fixed ski lake docks at Okeeholee Park with a new aluminum floating dock system. Construction has commenced.

CONTACT

5

COUNTY-WIDE Playground Renovation

\$2,957,250 was allocated in FY2017 and FY2018 for playground renovations within 10 parks across the county. The playgrounds and surfacing at these facilities have exceeded their lifecycle and are in need of replacement in order to provide continued safe play. (See Playground Renovations Map)

Remaining FY2017 Projects

- John Stretch Park
- Juno Park
- Sanders Drive Park

Upcoming FY2019 Projects

- John Prince Park Campground
- Lake Charleston Park
- Lake Belvedere Estates Park

Upcoming FY2018 Projects

- Okeehetee (Alligator Pavilion)
- Dubois
- John Prince (Center Drive Pavilion)
- Glades Pioneer
- Jupiter Farms
- Loggerhead
- Buttonwood
- Seminole Palms
- Morikami
- Ocean Cay
- Carlin (Gumbo Limbo Pavilion)

6

SAN CASTLE COMMUNITY Basketball Court Expansion

\$150,000 in CDBG funding has been allocated by the Department of Economic Sustainability for the expansion of the half-court basketball court facility to a full-court configuration. Design has been completed, with construction expected to commence later this spring.

7

COUNTY-WIDE Sports Field Lighting Replacement

A total of 17 light replacement projects were budgeted in FY2017 and FY2018. These projects will be funded through \$5.4M in Infrastructure Sales Tax proceeds. Work has commenced. (See Lighting Replacement Map)

- Burt Aaronson South County Regional Park
- Bert Winters Park
- Caloosa Park
- Dyer Park
- Glades Pioneer Park
- Juno Park
- Lake Charleston Park
- Okeehetee Park
- Pinewoods Park
- Westgate Recreation Center

8

GLADES PIONEER PARK Orange Bowl Field Phase II

The Orange Bowl Committee selected Glades Pioneer Park as a recipient of a \$1.5 million matching grant for the design, permitting and construction of a synthetic turf athletic field, electronic scoreboard, goals, entry monument and other infrastructure related amenities. Additional improvements could include seating areas, fencing, park furnishings, upgraded restroom/concession building and shade trees as funding permits. Phase I was completed in December and Phase II is currently under design.

9

CANYON DISTRICT PARK Phase I Development

The proposed 53 acre park is located south of Boynton Beach Boulevard and east of Lyons Road in western Boynton Beach. The park will be constructed in two phases. Phase I is in final design and will consist of three lighted multipurpose fields, a restroom/concession building, a fitness trail, parking and other necessary infrastructure. Design for Phase II has commenced and is expected to consist of a large showcase playground area, additional lighted multipurpose field, a dog park, picnic facilities, a maintenance compound and associated parking.

Construction for Phase I is expected to begin later this year and be completed by year end 2021. Phase II construction is expected to move forward by late-2021, pending funding. Project funding is a combination of Impact Fees and Infrastructure Sales Tax proceeds.

UPCOMING PROJECTS

10

BURT AARONSON SOUTH COUNTY REGIONAL Pickleball Courts

\$200,000 in Zone 3 Impact Fee reserve funding is being requested for the construction of six pickleball courts at Burt Aaronson South County Regional Park. The new pickleball courts are expected to be located at the current location of the underutilized volleyball hard court. Design is currently underway and construction is expected to commence by late-2020 pending Board of County Commissioners approval.

11

CARLIN PARK Pickleball Courts

\$200,000 in Zone 1 Impact Fee reserve funding is being requested for the construction of six pickleball courts at Carlin Park. The new pickleball courts are expected to be located directly to the north of the existing tennis court facility. Design is currently underway and construction is expected to commence by late-2020 pending Board of County Commissioners approval in June.

15

AQUA CREST POOL Pool Renovations

\$6 million in Infrastructure Sales Tax funding has been allocated for the renovation of the pool and surrounding support structures at Aqua Crest Pool. The project is currently in the scoping phase, with design expected to commence in May 2020. Construction timeline is to be determined but could move forward by early-2021.

12

JOHN PRINCE Pickleball Courts

\$50,000 in Zone 2 Impact Fee reserve funding is being requested for the conversion of two tennis courts to six pickleball courts at John Prince Park. Construction is expected to commence later this summer should the Board of County Commissioners approve the funding transfer in June.

16

COUNTY-WIDE Septic to Sewer Conversion

\$1,050,000 has been allocated in Impact Fees and Infrastructure Sales Tax proceeds for the design and conversion of septic systems associated with public restrooms to either a gravity or low pressure sewer system. Many of these existing septic systems are over 30 years old and have experienced recent failures. These conversions are also being performed to address Countywide resiliency efforts and improve overall water quality. The following parks have been proposed for conversion:

- Lake Ida West Park \$150,000
- John Prince Park (Triplex and Boundless areas) \$250,000
- Loxahatchee Groves Park \$250,000
- Juno Park \$50,000
- Caloosa Park \$100,000
- Okeeheelee Park (Caretakers Residence) \$50,000
- Lake Lytal \$50,000
- Morikami \$150,000

13

LAKE LYTAL PARK Aquatic Center

Conceptual design has been completed for a new Aquatic Center to be located on the west side of Lake Lytal Park. The facility is expected to include both competition features as well as other water based recreational amenities. The Department is finalizing a lease agreement with the YMCA to co-locate a new community center and skate park adjacent to the planned aquatic center. The YMCA will be responsible for construction and management of the community center and skate park facilities with the Parks and Recreation Department responsible for constructing and managing the aquatic center.

The design development phase for the Aquatic Center is expected to commence shortly and last approximately 12 months. Construction of the Aquatic Center could commence by late-2021. Upon completion of the new aquatic center the existing pool facility will be closed and demolished.

17

BURT AARONSON SOUTH COUNTY REGIONAL PARK Sunset Cove Amphitheater Sound/Light System Replacement

\$150,000 has been budgeted to replace the existing audio and lighting system at Sunset Cove Amphitheater. The system has been repeatedly damaged by storms over the years and is nearing the end of its designated life expectancy. A new concert quality system with additional surge protection will be installed.

14

BERT WINTERS PHASE II Renovations

Design is expected to commence in June for Phase II improvements to Bert Winters Park. Project elements have not been finalized but are expected to include demolition of the former PBMI building and tennis courts, renovation of the staging dock for public use, construction of a public canoe/kayak launch area, and construction of a picnic area that will include a pavilion and playground. Additional project elements include renovation of baseball field 1, repositioning of the sports lights around the multipurpose field, and additional car parking. Construction is projected to start by late-2020. Funding is from Infrastructure Sales Tax proceeds, FIND WAP grants and residual impact fees from Phase I development.

18**OCEAN INLET PARK
Phase I Development**

Design is nearly completed for the renovation and replacement of the dilapidated 30 year old seawall and dock system at Ocean Inlet Park. Phase I project costs are estimated at \$4.4 million. A Florida Inland Navigation District grant has been submitted to offset design costs. Construction is expected to commence by late-2020 pending additional grant funding and permit approval.

19**PAULETTE BURDICK PARK
New Development**

Up to \$1 million has been allocated in Surtax funding for the construction of a neighborhood park adjacent to the Cam Estates neighborhood in suburban West Palm Beach. A conceptual plan has been created and design has commenced. Project elements have not been finalized but will likely include a playground area, fitness zone, pathway, basketball court(s) and associated landscaping. Construction is anticipated to commence in 2020 pending design and environmental review.

20**JOHN PRINCE CENTER DRIVE
Boat Ramp Renovation**

Design has been completed on the renovation of the Center Drive boat ramp facility within John Prince Park. Project elements include renovation of all three boat ramps, replacement of existing fixed docks with floating docks, demolition of the former PBSO Boat House, and expansion/overlay of the existing parking lot. Construction is expected to commence by late 2020. Funding will be sourced from Infrastructure Sales Tax proceeds, FBIP and a FWC FBIP grant.

21**JOHN PRINCE PARK CAMPGROUND
Phase III Development**

\$1.7 million has been allocated for the design and construction of the final phase of improvements within the John Prince Park Campground. Improvements include construction of a new restroom and bathhouse, upgraded electrical distribution system and upgraded water and sewer infrastructure. Permitting is underway and construction is expected to commence by June 1, 2020.

22**JOHN PRINCE TRIPLEX SOCCER 5
New Development**

Soccer 5 USA was selected via an RFP to construct and manage six short sided soccer fields that will be located on Triplex Field 2 within John Prince Park. The existing underutilized softball field will be taken offline prior to construction. Four of the six fields will measure 85' x 130' to allow for 7vs7 matches, with two smaller fields measuring 50' x 65' for 5vs5 play. The facility will also include a concession and spectator area. The project is currently in for permitting and construction is expected to commence later this summer.

23**GRAMERCY PARK
Neighborhood Center**

Design is expected to commence shortly for the construction of +/- 10,000 square foot neighborhood center at Gramercy Park. Funding will be from a combination of local and Federal sources. Design, approvals and permitting is expected to take up to 18 months, with construction anticipated to commence by late-2021.

24**COUNTY-WIDE
Synthetic Turf Installation**

\$20,422,000 has been allocated through FY2020 for the installation of synthetic turf fields within 6 parks across the county. Heavy demand by youth and adult leagues cause the playing conditions at many of these facilities to fall below Department standards requiring significant down time for renovation. Installation of synthetic turf will reduce the amount of overall maintenance needed and allow the fields to be more accessible on a year-round basis. (See Synthetic Turf Installation Map)

- Dyer Park Fields 3,4, 5
- County Pines Park Fields 9, 10, 11
- John Prince Park (Triplex) Softball Fields 1,3
- Caloosa Park Fields 1,3 and Softball 4
- West Boynton District Park Field 1
- Loggers Run Park Fields 1,2
