Violations:	1 Details: It shall be unlawful for the owner or occupant of a building, structure or property to utilize the premises of such property for the open storage of any motor vehicle which is inoperable and in a state of disrepair, appliances, glass, building material, construction debris, automotive parts, tires, vegetative debris, garbage, trash or similar items. More specifically, a large pile of vegetative debris in front of the property. Code: Palm Beach County Property Maintenance Code - Section 14-35 (a) Issued: 03/25/2026 Status: CLS
--------------------	---

Violations:	ID	Description	Date Issued	Status
	1	Details: A permit issued shall be construed to be a license to proceed with the work and not as authority to violate, cancel, alter or set aside any of the provisions of the technical codes, nor shall issuance of a permit prevent the building official from thereafter requiring a correction of errors in plans, construction or violations of this code. Every permit issued shall become invalid unless the work authorized by such permit is commenced within six months after its issuance, or if the work authorized by such permit is suspended or abandoned for a period of six months after the time the work is commenced. More specifically, permit # B-2018-036335-0000, Aluminum Structure has become inactive or expired. Code: PBC Amendments to FBC 8th Edition (2023) - 105.4.1 Issued: 02/09/2026 Status: SIT		
	2	Details: A certificate of completion is proof that a structure or system is complete and for certain types of permits is released for use and may be connected to a utility system. This certificate does not grant authority to occupy a building, such as shell building, prior to the issuance of a certificate of occupancy. More specifically, for expired permit # B-2018-036335-0000, Aluminum Structure. Code: PBC Amendments to FBC 8th Edition (2023) - 111.5 Issued: 02/09/2026 Status: SIT		
	3	Details: Any owner or authorized agent who intends to construct, enlarge, alter, repair, move, demolish, or change the occupancy of a building or structure, or to erect, install, enlarge, alter, repair, remove, convert or replace any impact-resistant coverings, electrical, gas, mechanical or plumbing system, the installation of which is regulated by this code, or to cause any such work to be done, shall first make application to the building official and obtain the required permit. More specifically, a shed/accessory structure to the south side of the property has been erected or installed without a valid building permit. Code: PBC Amendments to FBC 8th Edition (2023) - 105.1 Issued: 02/09/2026 Status: SIT

Details: Any owner or authorized agent who intends to construct, enlarge, alter, repair, move, demolish, or change the occupancy of a building or structure, or to erect, install, enlarge, alter, repair, remove, convert or replace any impact-resistant coverings, electrical, gas, mechanical or plumbing system, the installation of which is regulated by this code, or to cause any such work to be done, shall first make application to the building official and obtain the required permit. More specifically, landfill has been added to property yard area without a valid building permit.

All construction activity regulated by this code shall be performed in a manner so as not to adversely impact the condition of adjacent property, unless such activity is permitted to affect said property pursuant to a consent granted by the applicable property owner, under terms or conditions agreeable to the applicable property owner. This includes, but is not limited to, the control of dust, noise, water or drainage runoffs, debris, and the storage of construction materials. New construction activity shall not adversely impact legal historic surface water drainage flows serving adjacent properties, and may require special drainage design complying with engineering standards to preserve the positive drainage patterns of the affected sites. Accordingly, developers, contractors and owners of all new residential development, including additions, pools, patios, driveways, decks or similar items, on existing properties resulting in a significant decrease of permeable land area on any parcel or has altered the drainage flow on the developed property shall, as a permit condition, provide a professionally prepared drainage plan clearly indicating compliance with this paragraph. Upon completion of the improvement, a certification from a licensed professional, as appropriate under Florida law, shall be submitted to the inspector in order to receive approval of the final inspection. More specifically, landfill has been installed onto yard area without required permits or approvals.

Details:

Development other than Buildings and Structures: The Floodplain Administrator shall inspect all Development to determine compliance with the requirements of this Article and the conditions of issued Floodplain Development Permits or Approvals.

On all new, permitted construction, regardless of flood zone designation, grading shall keep all rainfall and runoff flow on the Building site until discharged into the roadway drainage system or to public drainage ways adjacent to the property lines. Berms shall be constructed along lot lines, if necessary, to prevent stormwater flow directly onto adjacent properties. Erosion sedimentation off the Building site shall be controlled until vegetative cover is established. The Floodplain Administrator may require grading plans showing pre-construction and proposed finish earth grades.

More specifically, the fill brought into the property without permits

Details:

All construction activity regulated by this code shall be performed in a manner so as not to adversely impact the condition of adjacent property, unless such activity is permitted to affect said property pursuant to a consent granted by the applicable property owner, under terms or conditions agreeable to the applicable property owner. This includes, but is not limited to, the control of dust, noise, water or drainage runoffs, debris, and the storage of construction materials. New construction activity shall not adversely impact legal historic surface water drainage flows serving adjacent properties, and may require special drainage design complying with engineering standards to preserve the positive drainage patterns of the affected sites. Accordingly, developers, contractors and owners of all new residential development, including additions, pools, patios, driveways, decks or similar items, on existing properties resulting in a significant decrease of permeable land area on any parcel or has altered the drainage flow on the developed property shall, as a permit condition, provide a professionally prepared drainage plan clearly indicating compliance with this paragraph. Upon completion of the improvement, a certification from a licensed professional, as appropriate under Florida law, shall be submitted to the inspector in order to receive approval of the final inspection.

More specifically, the fill used to fill-in the pond and to rise the elevation of the property.

Details: All construction in a drainage easement shall be subject to approval by the beneficiary of said easement. Further, the Land Development Division (LDD) shall approve all encroachments into easements which drain County roads. [Ord. 2010-005] [Ord. 2010-022]

2. If a Building Permit is required, the Applicant shall obtain approval from the LDD or appropriate entity prior to submitting the Building Permit application to PZB. [Ord. 2010-005] [Ord. 2010-022]

3. When approval is required from LDD, the Applicant shall submit a request to encroach a drainage easement in or on a form established by the LDD and include a copy of the recorded deed to the parcel on which the easement is located; the document creating the easement; a certified sketch of survey of the easement; a sketch or plans showing the proposed construction in relation to the location of existing drainage improvements in the easement; and, such other documentation as the LDD reasonably deems appropriate. [Ord. 2010-005] [Ord. 2010-022]

4. When encroachments are proposed in easements which drain County roads, the LDD may deny, approve, or approve with conditions the construction. [Ord. 2010-005] [Ord. 2010-022]

5. When approval is required from LDD, no approval shall be given before the LDD has received specific written consent from all easement holders, easement beneficiaries, and governmental entities or agencies having jurisdiction of the drainage easement. The LDD is hereby authorized to effect consent on behalf of PBC when PBC is the easement holder or beneficiary of a drainage easement. The LDD may require that consent be in or on a form established by the LDD. [Ord. 2010-005] [Ord. 2010-022]

6. For easements which drain County roads, the LDD shall also have executed in proper form, and shall cause to be recorded against the Applicant's land involved, a removal and indemnification declaration (with the necessary consents) on a form approved by County Attorney's Office. Said declaration shall provide that all direct and indirect costs related to removal shall be borne by the Property Owner, its heirs, successors, assignees, and grantees; that the aforestated person(s) shall indemnify and hold PBC, its officers, employees, contractors, and agents harmless against any and all claims and liabilities of whatever nature (including personal injury and wrongful death) arising from any approval granted hereunder or the construction or installation approved hereunder. The removal declaration shall inure to the benefit of the easement holders and beneficiaries. It shall contain such other terms and covenants as the LDD or the County Attorney deems appropriate. SPECIAL MAGISTRATE HEARING AGENDA
AUGUST 05, 2026 9:00 AM

Violations:	1	Details: Development other than Buildings and Structures: The Floodplain Administrator shall inspect all Development to determine compliance with the requirements of this Article and the conditions of issued Floodplain Development Permits or Approvals. On all new, permitted construction, regardless of flood zone designation, grading shall keep all rainfall and runoff flow on the Building site until discharged into the roadway drainage system or to public drainage ways adjacent to the property lines. Berms shall be constructed along lot lines, if necessary, to prevent stormwater flow directly onto adjacent properties. Erosion sedimentation off the Building site shall be controlled until vegetative cover is established. The Floodplain Administrator may require grading plans showing pre-construction and proposed finish earth grades. More specifically please obtain a site development permit to address the clearing of the lot and any added fill. Code: Unified Land Development Code - 18.A.6.B & 18.D.5.A.1 Issued: 04/08/2026 Status: CLS
	2	Details: All construction activity regulated by this code shall be performed in a manner so as not to adversely impact the condition of adjacent property, unless such activity is permitted to affect said property pursuant to a consent granted by the applicable property owner, under terms or conditions agreeable to the applicable property owner. This includes, but is not limited to, the control of dust, noise, water or drainage runoffs, debris, and the storage of construction materials. New construction activity shall not adversely impact legal historic surface water drainage flows serving adjacent properties, and may require special drainage design complying with engineering standards to preserve the positive drainage patterns of the affected sites. Accordingly, developers, contractors and owners of all new residential development, including additions, pools, patios, driveways, decks or similar items, on existing properties resulting in a significant decrease of permeable land area on any parcel or has altered the drainage flow on the developed property shall, as a permit condition, provide a professionally prepared drainage plan clearly indicating compliance with this paragraph. Upon completion of the improvement, a certification from a licensed professional, as appropriate under Florida law, shall be submitted to the inspector in order to receive approval of the final inspection. More specifically please obtain a site development permit to address the clearing of the lot and any added fill. Code: PBC Amendments to FBC 8th Edition (2023) - 110.10 Issued: 04/08/2026 Status: CLS
