Notice to Building & Plumbing Permit Applicants

**Health Department Plan Review
Has Moved To:**

800 Clematis Street, West Palm Beach

Please note that Section 381.0065(4), Florida Statutes requires Health Department approval prior to issuance of many permits. In order to avoid delays with your project please ensure that a complete set of plans is provided to the Health Department prior to or as soon as possible after submittal of your plans to the Building Department.

The Florida Statute specifically addresses:

- Issuance of building or plumbing permits for any building that requires the use of an onsite sewage treatment and disposal system.
- Prohibits occupancy of a building or structure until the Health Department approves the final installation of the onsite sewage treatment and disposal system.
- Prohibits any change in the occupancy or tenancy of a building that uses an onsite sewage treatment and disposal system until the Health Department has reviewed the use of the system with the proposed change, approved the change, and amended the operating permit.

Please be assured that the Health Department will continue to work with the County to ensure that requirements of the Florida Statute are met in a timely and efficient manner.

For directions to the Health Department or other information please call the OSTDS Office at the following numbers:

561-837-5900 (Voice) & 561-837-5293 (Fax)
